Job titles & role values

All amounts are in Indian rupees (₹). A monthly salary basis is assumed for this draft.

Each amount below is one part of a partner's salary. The partner's assigned role values are added together, then the common contribution amount is added.

Job title	Level	Monthly role value
Scriptwriter	Senior	₹3,500
Actor	Not specified	₹2,000
Actor	Junior	₹1,500
Creative Director	Senior	₹3,500
Poster Designer	Creative Senior	₹2,500
Poster Designer	Mid-Level	₹2,000
Poster Designer	Junior	₹1,200
Social Media Manager	Senior	₹1,200
Social Media Manager	Not specified	₹1,000
Video Editor	Senior	₹3,000
Video Editor	Junior	₹2,000
UI/UX Designer		₹500
Website Developer	Senior	₹3,500
Website Developer	Junior	₹1,000
Meta Ads Manager	Senior	₹2,000
Meta Ads Manager	Junior	₹1,500
IT Support	Senior	₹3,000
AI Video Creator	Not specified	₹1,500
Cameraman / Videographer	Not specified	₹2,200

"Not specified" means no seniority level was supplied.

Each partner's salary

Role totals are checked. The common contribution amount is additional and equal for all partners.

Anirudh	MONTHLY ROLE AMOUNT
Scriptwriter (Senior)	**₹3,500**
Actor	**₹2,000**
Creative Director (Senior)	**₹3,500**
Poster Designer (Creative Senior)	**₹2,500**
Social Media Manager (Senior)	**₹1,200**
Video Editor (Junior)	**₹2,000**
UI/UX Designer	**₹500**
Total role value	**₹15,200**

Total salary target: ₹18,200 to ₹20,200 | Includes ₹3,000-₹5,000 common amount

Sujith	MONTHLY ROLE AMOUNT
Website Developer (Senior)	**₹3,500**
Poster Designer (Mid-Level)	**₹2,000**
Meta Ads Manager (Senior)	**₹2,000**
Actor (Junior)	**₹1,500**
UI/UX Designer	**₹500**
IT Support (Senior)	**₹3,000**
Total role value	**₹12,500**

Total salary target: ₹15,500 to ₹17,500 | Includes ₹3,000-₹5,000 common amount

Karthik	MONTHLY ROLE AMOUNT
Video Editor (Senior)	**₹3,000**
AI Video Creator	**₹1,500**
Cameraman / Videographer	**₹2,200**
Website Developer (Junior)	**₹1,000**
UI/UX Designer	**₹500**
Meta Ads Manager (Junior)	**₹1,500**
Social Media Manager	**₹1,000**
Poster Designer (Junior)	**₹1,200**
Total role value	**₹11,900**

Total salary target: ₹14,900 to ₹16,900 | Includes ₹3,000-₹5,000 common amount

The range is illustrative until one fixed common amount is selected. Each partner receives the same selected amount, once per month.

How this package works

Salary has two parts: responsibility for assigned roles and contribution to the business as a whole.

Why use this method?

The role amount recognizes each partner's assigned work and level of responsibility. The common amount recognizes shared work needed to run and grow the company. This makes the calculation clear and allows future changes to follow client work.

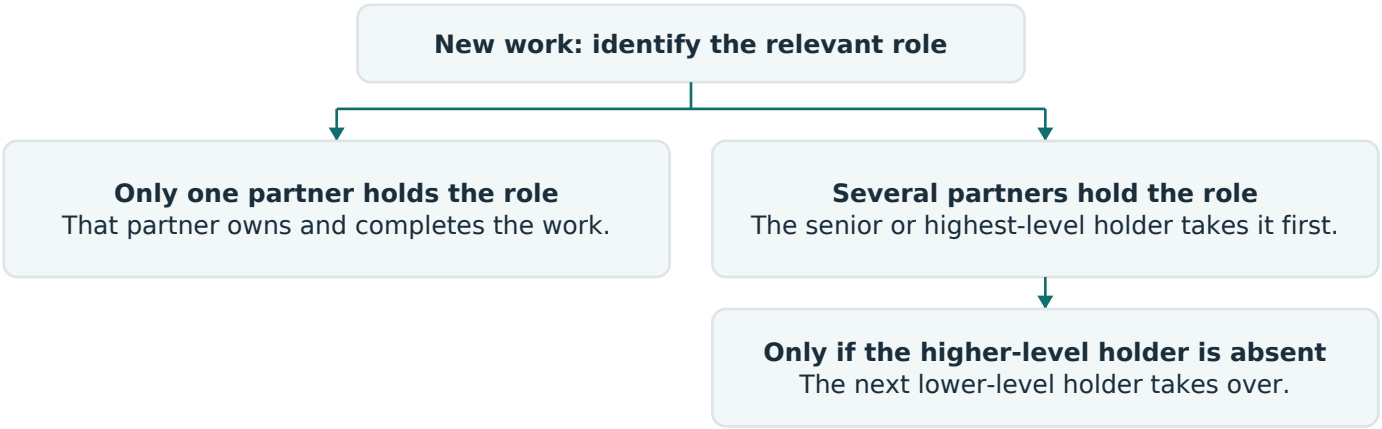

Monthly salary target = total assigned role values + one common contribution amount

Common contribution: ₹3,000-₹5,000 each

Select one fixed amount within this range and use the same amount for all partners for equal contribution. It covers time investment, client dealings, company growth, meetings, sales and other company responsibilities. It is added once per partner, not once per role.

All three partners	At ₹3,000 each	At ₹5,000 each
Total role values	₹39,600	₹39,600
Total common contribution	₹9,000	₹15,000
Combined salary target	**₹48,600**	**₹54,600**

Who takes the work?

Same-level holders: If several partners hold the same level, agree one task owner before work begins.

Tell the team early if work is at risk

Every role holder must inform the team promptly if the workload is too high, they are unavailable, or the deadline cannot be met. State what is pending and the help needed, then agree support or a revised deadline. Do not wait until the deadline is missed.

Salary changes & money rules

These rules explain what happens when clients, income or available company cash change.

1. If a client is lost

If losing a client reduces company income, future salary targets must be reviewed and reduced to match the remaining income and work. Record the revised amounts and the month they start. An existing unpaid salary balance remains separate.

2. If new clients are added

When all partners are involved in a new client, divide the approved salary increase equally among all three. Otherwise, allocate increases according to the extra work of the affected roles; the partner taking more work receives the larger increase. The increase is not automatically the full client fee.

3. If the company cannot pay the salary target

Record the unpaid amount for each partner as salary owed by the company (company debt). Carry it forward and clear it from the very next available profits. If those profits are insufficient, pay what is available and keep the balance outstanding. Do not treat the shortfall as paid or cancelled.

4. Money left after salaries

The company may have money left after salaries, or it may have none. Any remaining company money stays in the company for future salaries, operating needs and company funds. It is not automatically divided among partners.

5. No withdrawals above the agreed salary

Partners may not take more than their agreed total salary. An urgent exception must be agreed and recorded as a repayable advance, not extra salary. Record the amount and a reasonable repayment date, and repay it by that date.

6. Keep every change clear to all partners

Record salary changes, the reason, affected partners and the start month. Keep a simple record of salary due, salary paid, unpaid balances, advances and repayments. Share any workload problem with the team promptly.

Simple examples

Equal involvement: an approved increase of ₹3,000 gives each partner ₹1,000 more.
Payment shortfall: if ₹18,200 is due and ₹15,000 is paid, ₹3,200 remains owed.

Confirm when reviewing this draft

1. Confirm the monthly basis and select the common amount: ₹3,000-₹5,000.
2. Agree the policy start date, salary payment date and who records changes or advances.
